

ITEM # RESO 08-130

FISCAL IMPACT: \$76,000.00

FUNDING SOURCE: Bond Funds

ACCOUNT NUMBER: 57-7612

ISSUE:

Approve Contract with Erickson Landscaping to fill in twenty Bunkers at Stonebridge Golf Course for \$76,000

SYNOPSIS:

Stonebridge Golf Course is filling in twenty bunkers to streamline the operations and become more cost effective. Competitive bids were solicited through public advertising and a formal bid opening was conducted under direction of the City Recorder. The winning bidder, Erickson Landscaping, will do the requested work for \$76,000.

BACKGROUND:

Stonebridge Golf Course has 89 bunkers scattered throughout the 27 holes. That many bunkers are difficult to maintain. To streamline operations and operate more cost effective, the staff determined more focus should be put on Tees, Greens, and Fairways. Staff decided several bunkers could be removed from the course, without significant impact on play, to free up valuable maintenance time for target areas. Twenty bunkers were identified as removable and a bunker fill-in plan was prepared. Staff then reviewed the plan with Zions Securities to secure approval.

Competitive bids were solicited through newspaper advertising and a formal bid opening was conducted under direction of the City Recorder. Two bids were received.

Erickson Landscaping: \$106,758.75

Turf sprinkler Co: \$208,143.00

Both prices were more than the projected budget. Staff took the low bid by Erickson Landscaping and made quantity changes. Top Soil was reduced from 1,702 cu/yds to 701 cu/yds by reducing twelve inches of top soil in each bunker to six inches. The line item for Seeding four waste bunkers of \$6,066 was also removed and will be done by staff. This brings the Total to \$76,000.00.

RECOMMENDATION:

Approve the resolution awarding the Golf Course Bunker Fill-In Project to Erickson Landscaping for \$76,000.00.
